# about this ISSUE

LifeFuture™

PrimeTech™

What do you usually do to make yourself feel refreshed? Do you take a cold shower? Or do you go for a fast run or a slow walk? Or do you take a short power nap? Or do you listen to calming music? Whatever it is, the key idea here is you can do something to freshen yourself up and there is always a way for everyone.

As we put this issue together, we're always thinking about how we can change things up a little bit here and there, bringing a noticeable sense of novelty to the table. Hence the theme for this issue was born - to refresh and elevate. Revolving around this idea, we hope that by presenting stimulating pictorials from different collections, that are both inspiring and refreshing, we can still keep things true to the core essence of the Le'Fonse brand - being essentially chic and stylishly timeless.

It is fascinating for us to see how our basic items are being styled by our customers. Being stylish is not a difficult task. What you need is a set of easy pieces, especially pieces with good quality and great functionality that you can pair with any items in your wardrobe to translate and elevate your own personal unique style.

Needless to say there are some new cool stuffs we want to proudly introduce, including the new Hybrid Cotton (MH01), a smart innovation combining cotton and microfiber that offers exceptional functions with alluring features.

The excitement doesn't end here. Our cotton and microfiber series are now better, stronger and cooler than ever. Our brand new LifeFuture™ Cotton is ingeniously anti carcinogenic, hypoallergenic and skin friendly while PrimeTech™ Microfiber brilliant features of anti UV and anti bacterial. You'll just have to discover it yourself in this issue later on.

We hope you'll like what we have put together for you and enjoy it as much as we did producing it.

Total Quality. Assured.

First class quality for superior comfort

When it comes to offering the finest in cotton products, our commitment to quality sets us apart. Unlike carded cotton, a material that is widely used and common in the market, our LifeFuture™ Cotton uses 100% premium combed cotton that is exceptionally astounding. This marks a new level of comfort, durability and modern luxury with our meticulous creations of LifeFuture™.

## 1. Unparalleled Uniformity and Softness

What makes it stand out from the typical carded cotton is that our LifeFuture™ Cotton has perfect alignment between the fibers, creating a consistent and straight yarn that achieves superior uniformity. This intricate process produces an even and remarkably smooth texture. Your skin will indulge in the luxurious softness when touching the fabric.

## 2. Radiant Luster and Luminosity

Our commitment to excellence shines through in every thread. The process of combing removes short staple fibers and enhances the yarn's ability to reflect light, making it appear glossy and shiny. Get ready to be captivated with this shimmering quality of our LifeFuture™ Cotton pieces.

## 3. Better Durability and Longer Lasting

The combing process of our LifeFuture™ Cotton eliminates the unwanted short fibers, making it a robust longer lasting and highly durable fabric. It's time for you to cherish your beloved pieces that will remain at its top condition for a longer time.

## 4. Less Pilling for Better Appearance

Bid farewell to the woes of pilling and fuzziness. Our LifeFuture™ Cotton ensures that impurities and short fibers are removed in the process, significantly reducing the likelihood of loose threads and pilling on the fabric's surface. This guarantees an instant elevation for the overall product appearance.

## 5. Great Breathability for All-Day Comfort

The uniform alignment of the fibers in our LifeFuture™ Cotton promotes enhanced airflow, elevating moisture absorption and delivering a cooling effect that gives you all day comfort.

## 6. Resilient Against Shrinkage

Our LifeFuture™ Cotton is more stable than ever, thanks to its sturdy structure as a result of removal of impurities and smart alignment of fibers, the shrinkage caused by washing has been significantly mitigated compared to carded cotton. Now your favorite cotton pieces will shrink no more.

## 7. Hypoallergenic Luxury

Your wellbeing is our top priority. With the hypoallergenic properties of our LifeFuture™ Cotton, the fabric has the ability to remove potential allergens such as dusts and pollen, giving you a fabric surface that is gentle on the skin and unlikely to trigger allergies. Goodbye irritation, hello superior comfort!

## 8. Anti Carcinogenic Property

Our LifeFuture™ Cotton uses premium combed cotton that is free of carcinogenic agents including Azo Dye, undergoing rigorous testing and conforms to the highest safety standards and has also been certified by Intertek and SGS. We care about you and it makes perfect sense for us to put your well-being as our top priority.

This is our LifeFuture™ Cotton. Immerse yourself in a new world of luxuriously understated fabric that offers you nothing but the best quality, enduring styles and highest functionality.

# LACOSTE

Intervening the sweet spot between relaxing casual chic and dapper dressing, polo t-shirts have emerged to be a style necessity for both men and women. It is a wise investment to stock up at least a few pieces especially when they are made of breathable cotton that is with honeycomb-knitted threads, keeping you cool and comfortable. These are the updated styles in a variety of iconic colours you will want to keep wearing for a long time.

As classic as they are, our denim shirts are built to last, both the quality and styles.
